DISCOVERING LANDPARK MANAGER IT ASSET MANAGEMENT SOFTWARE

LANDPARK MANAGER

Landpark Manager - a user-friendly interface with graphical views of your IT assets

Comprehensive management of your IT assets ► Multi-site/multi-company management ► High-level views of your IT assets (geographical, organizational, network) using "Treeview" components ► Treeview-based site management ► User directory service by department and company ► Assign users to hardware, software, tickets ► User-friendly interface ► Immediate and easy access to information and feature.

A USER-FRIENDLY GRAPHICAL USER INTERFACE

Landpark Manager - quickly manage your assets via a context-sensitive toolbar

Whatever asset type is selected (computer, printer, software, network element, network card, hard disk, device monitor etc ...), you can manage all of the following: Purchase settings ► Guarantees ► Maintenance contracts ► Insurance contracts ► Subscription contracts ► Ticket creation on currently selected item ► Depreciation calculation ► Budget line allocation ► Loans.

QUICKLY MANAGE YOUR ASSET INFORMATION

Landpark Manager - high availability of information on each of your assets

The screenshot shows the 'Computer' details window in Landpark Manager. It includes a sidebar with a tree view of assets, a main panel with tabs for Details, Connections, Software, and Users, and a right-hand pane showing a list of hardware components. The 'Details' tab is active, showing fields for Computer status, Acquisition, Inventory date, Computer name, Serial number, Manufacturer, Model, O.S., and a list of hardware components like Processor, Hard disk drive, Network interface card, Keyboard, Mouse, and various ports.

QUICKLY MANAGE YOUR ASSET INFORMATION

Landpark Manager - high availability of information on each of your assets

Remote control

The screenshot displays the Landpark Manager 4.7.0b interface. The left sidebar shows a tree view of assets categorized by location (e.g., Ceres Informatique, Acti Bureaux). The main window shows the details of a selected computer asset, including its acquisition date, inventory date, manufacturer (HP), model (MS-K800E 1.0), and various hardware components like the processor (Intel® Pentium® 4 CPU 3.00GHz), hard disk drive (Seagate Barracuda 7200), and network interface card (Realtek RTL8101). The right sidebar shows a list of other assets in the same category.

The 'Location' window shows a hierarchical tree view of the organization's structure. It starts with 'Ceres Informatique' and branches into 'Stock' and 'Tours'. Under 'Tours', there is a '1st Floor' section containing 'Management Team', 'Printers Room', 'Sales Team', 'Station de travail', 'Portable', 'Imprimante', 'Servers Room', and 'Technical Team'. The 'Ground Floor' section is also visible.

The 'Item localisation' window displays a table of asset locations. The table has columns for 'Marque', 'Modèle', 'Type', 'N° de série', and 'Code interne'. The data shows various assets like 'MSI', 'MSI K800E 1.0', 'MSI K800E 1.0', 'MSI K800E 1.0', etc., and their corresponding internal codes.

Full asset summary, signable by users

The 'Remote control' window shows a desktop environment with various icons and a taskbar. A small window in the foreground displays a video feed of a person using a computer, with the text 'Le Meilleur de la Gestion de Parc Informatique' and 'LANDPARK' visible.

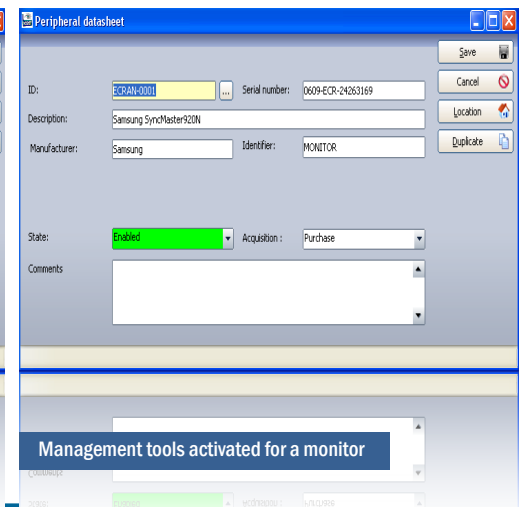

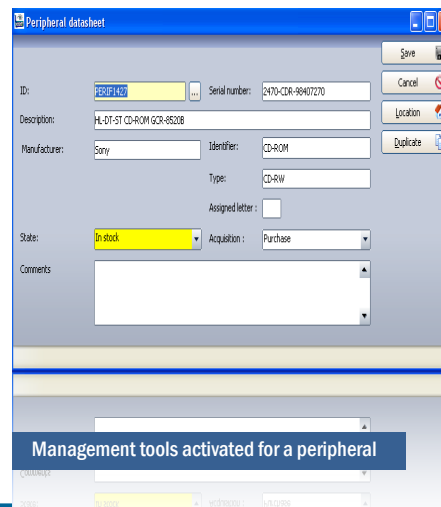

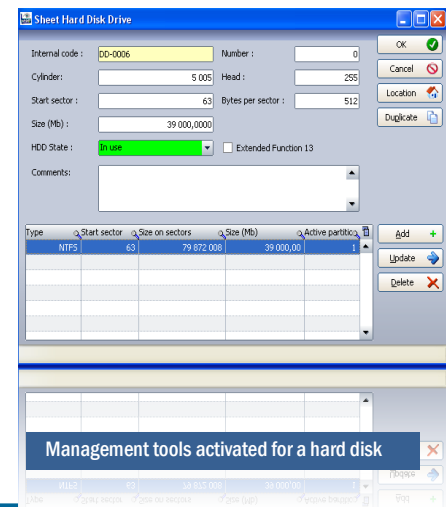

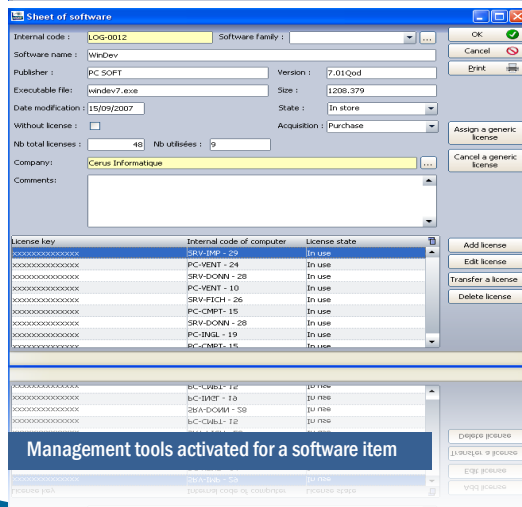

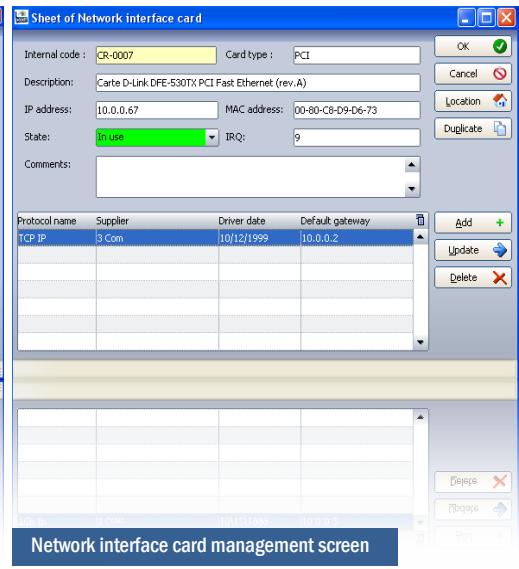

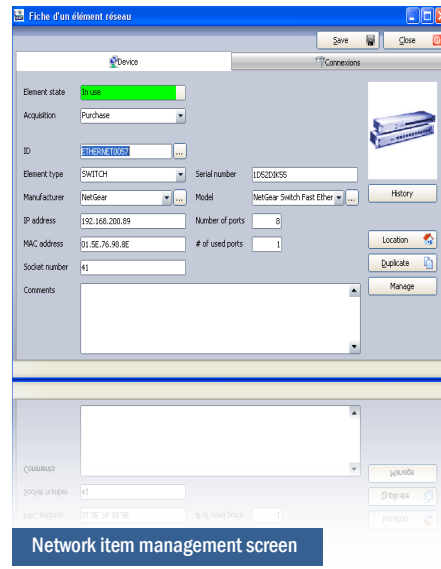

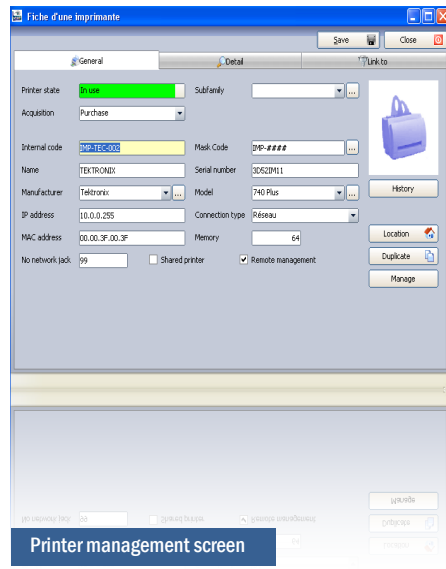

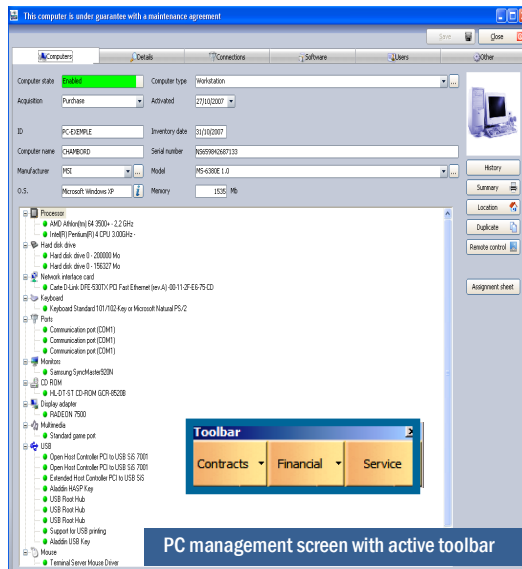

The 'Hardware duplication' window shows a form for duplicating hardware. It includes fields for 'Internal code of hardware to duplicate' (PC-EXAMPLE), 'Number of copies' (10), '1st part of code' (PC-EXAMPLE), '2de part of code' (PC-EXAMPLE), and '3th part of code' (50). There are checkboxes for 'Copying of the softwares' and 'Copying of the contracts'. The 'Internal code' list shows a series of codes from PC-EXAMPLES0 to PC-EXAMPLES9.

Duplicate the item automatically

► Whatever item is selected (computer, printer, software, network element, network card, hard disk, device, monitor, etc...), you can promptly retrieve any related information ► Item location ► Remote control ► Duplicate the item automatically ► Print out a complete signable summary that describes currently allocated hardware.

QUICKLY ACCESS MANAGEMENT TOOLS

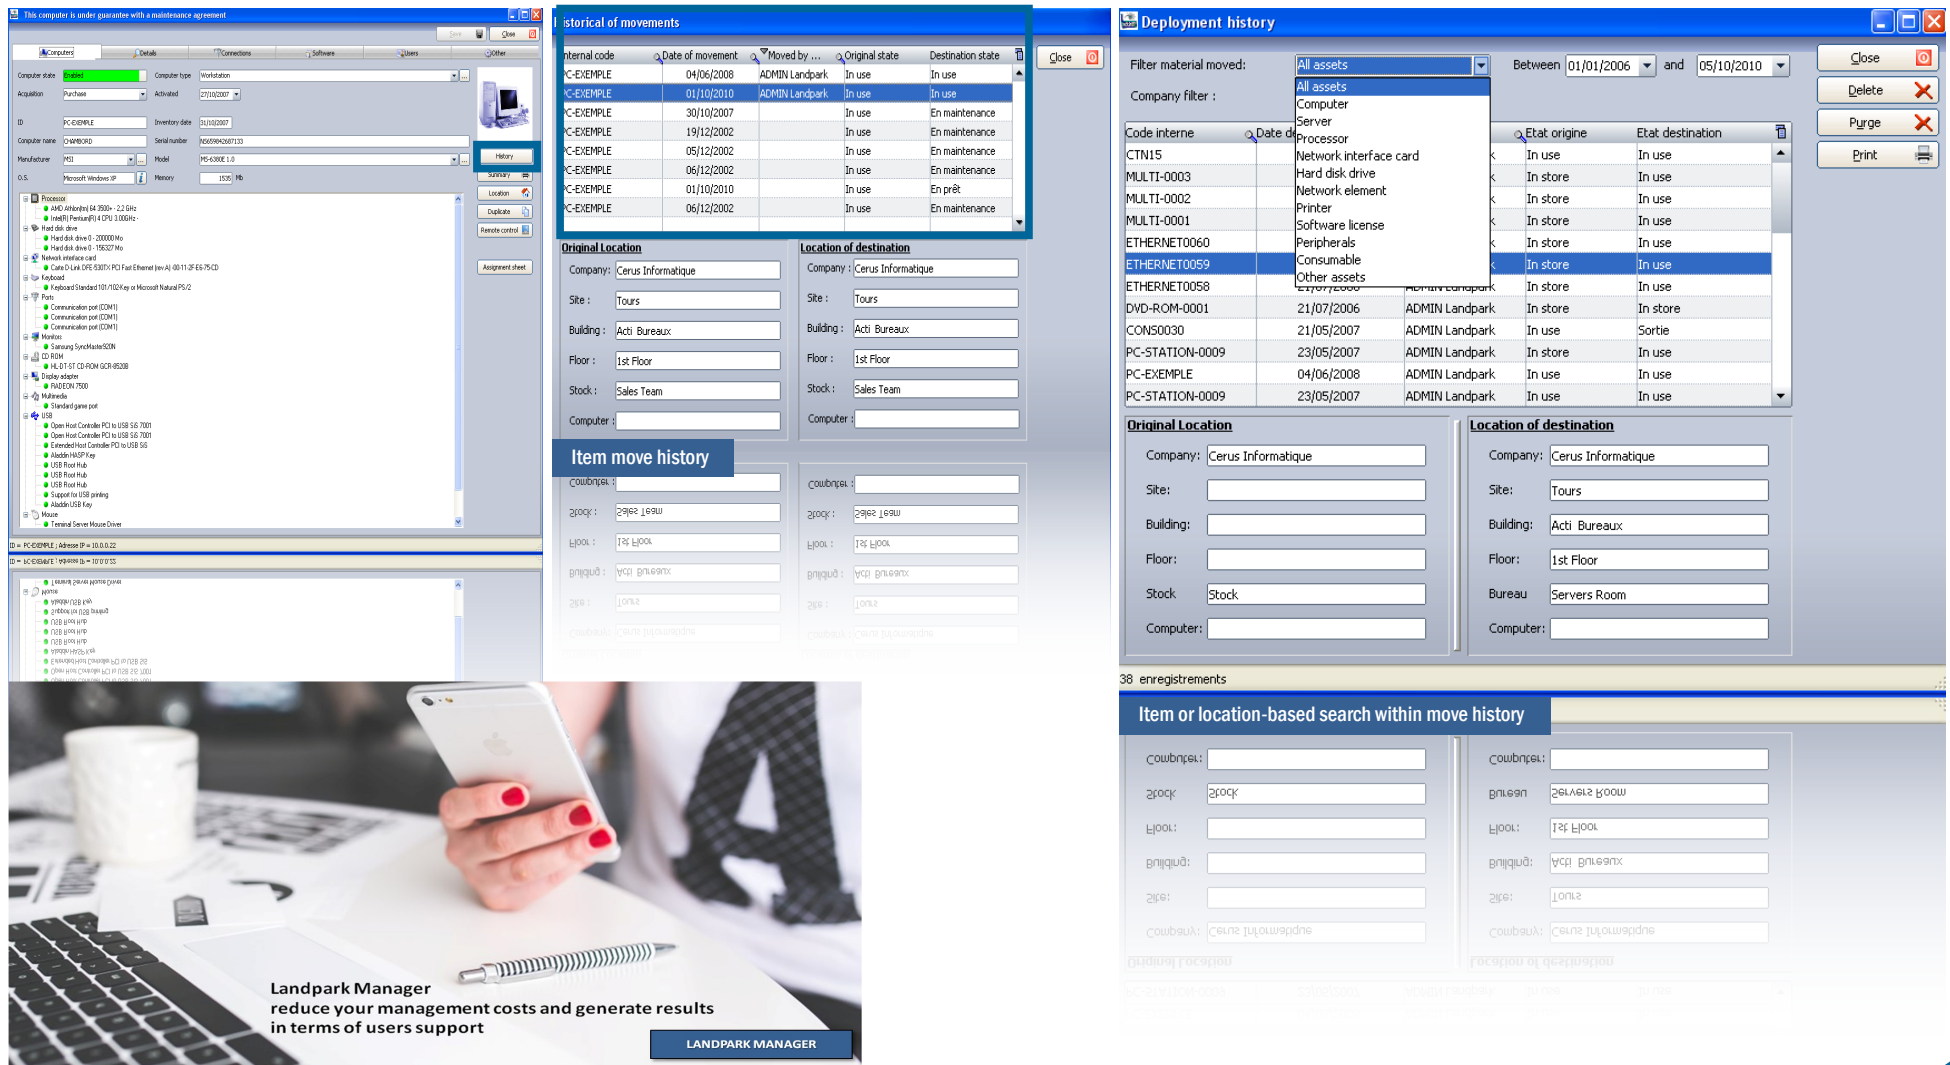

Managing all your IT assets / your management toolbar changes according to the currently-selected item

Whatever asset type is selected (computer, printer, software, network element, network card, hard disk, device, monitor etc...), you can manage all of the following: Purchase settings ► Guarantees ► Maintenance contracts ► Loans agreements ► Insurance contracts ► Subscription contracts ► Tickets on this item ► Depreciation calculation ► Budget line allocation.

The image shows a Windows XP desktop with a taskbar at the bottom containing icons for Internet Explorer, a folder named 'Logiciels', and a folder named 'Logiciels installés'. The 'Logiciels installés' window is open, displaying a list of installed programs. The window is divided into three panes: 'Unwanted Software' (left), 'Licenses used' (middle), and 'Total license' (right). The 'Unwanted Software' pane shows a list of installed programs with checkboxes. The 'Licenses used' pane shows the same list with license counts. The 'Total license' pane shows the total license count for each program. The list of programs includes: 'Moniteur de Microsoft Connection', 'MLS Migrate DLL', 'Mise à jour de sécurité pour Windows 12', 'Mise à jour de sécurité pour Windows 12', 'Mise à jour de sécurité pour Windows 11', 'Mise à jour de sécurité pour Windows 8', 'Mise à jour de sécurité pour Windows 11', 'Mise à jour de sécurité pour Windows 15', 'Mise à jour de sécurité pour Windows 12', 'Mise à jour de sécurité pour Windows 9', 'Mise à jour de sécurité pour Windows 15', 'OLE Automation Type Library Gene', 'OLEViewer Version 2.1', 'Utilitaire de ligne de commande IIS', 'Utilitaire de connexion de session', 'Utilitaire de décompression LZ', 'Utilitaire de sauvegarde Windows', 'Outil de configuration du convertisseur', 'Windows Installer 3.1 (KB893803)', 'Windows Media Player Encoder Hel', 'WMI', 'Utilitaire d'arrêt du système', 'Utilitaire d'aide de la ligne de commande', 'Utilitaire Actualisation de stratégie', 'Outil de rapport de suivi d'événement', 'Paint Shop Pro 7', 'Programme de contrôle des ACLs', 'Registry Editor Utility', 'Service de la carte de performance', 'Spider', 'SQL Client Configuration Utility', 'Tool for Driver Update', and 'Adobe Reader 8 - Français'. The 'Total license' column shows values ranging from 1 to 15. The 'Logiciels installés' window is open, showing a list of installed programs. The list includes: 'Moniteur de Microsoft Connection', 'MLS Migrate DLL', 'Mise à jour de sécurité pour Windows 12', 'Mise à jour de sécurité pour Windows 12', 'Mise à jour de sécurité pour Windows 11', 'Mise à jour de sécurité pour Windows 8', 'Mise à jour de sécurité pour Windows 11', 'Mise à jour de sécurité pour Windows 15', 'Mise à jour de sécurité pour Windows 12', 'Mise à jour de sécurité pour Windows 9', 'Mise à jour de sécurité pour Windows 15', 'OLE Automation Type Library Gene', 'OLEViewer Version 2.1', 'Utilitaire de ligne de commande IIS', 'Utilitaire de connexion de session', 'Utilitaire de décompression LZ', 'Utilitaire de sauvegarde Windows', 'Outil de configuration du convertisseur', 'Windows Installer 3.1 (KB893803)', 'Windows Media Player Encoder Hel', 'WMI', 'Utilitaire d'arrêt du système', 'Utilitaire d'aide de la ligne de commande', 'Utilitaire Actualisation de stratégie', 'Outil de rapport de suivi d'événement', 'Paint Shop Pro 7', 'Programme de contrôle des ACLs', 'Registry Editor Utility', 'Service de la carte de performance', 'Spider', 'SQL Client Configuration Utility', 'Tool for Driver Update', and 'Adobe Reader 8 - Français'. The 'Total license' column shows values ranging from 1 to 15.

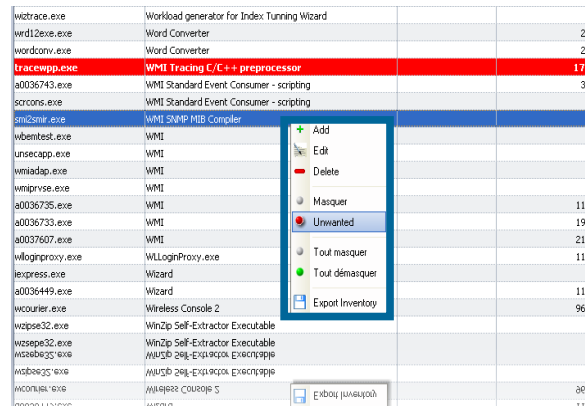

► **Software list by location and family, ID, number of detected licenses, number of purchased licenses** ► **To open a software item assign a license number to the PC where the license is installed , insert its license type and the number of times the license key needs to be duplicated in order to transfer the license to another PC** ► **Create alerts on unwanted software or unlicensed software** ► **Quickly identify which PCs have unwanted or unlicensed software** ► **PC list associated with software licenses.**

MANAGING YOUR SOFTWARE LICENSES

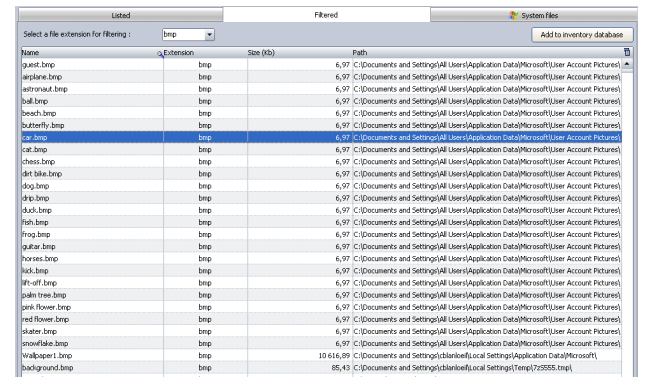

Modify the software reference list, add your own applications or detect unwanted software

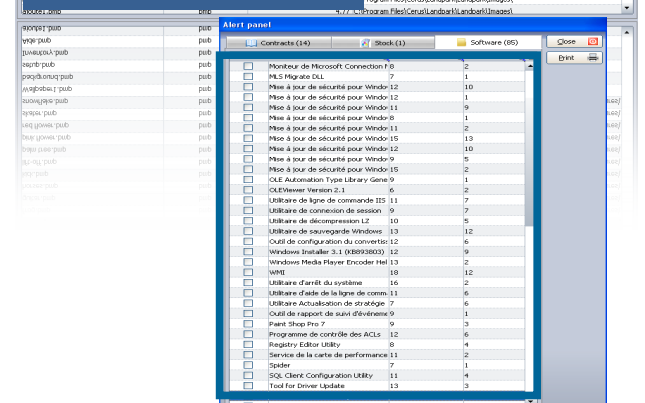

Adding your own applications to the software reference list

Marking software as unwanted

Marking a file extension as unwanted

Detect unwanted software with alerts

Landpark Manager
for a **100%** better management of your IT assets

► Software reference list, add your in-house applications (exe, dll, *.*) ► Mark software products or file extensions as unwanted and detectable by alerts ► Find any application that isn't registered in your software reference list.

Any list can be exported to EXCEL, WORD, XML

Landpark Manager
for a 100% better management of your IT assets

The screenshot displays the Landpark Manager interface with a menu for exporting data. The menu options are:

- Select columns...
- Cut
- Copy row
- Copy All
- Paste
- Export table to Excel...
- Export table to Word...
- Export table to XML...
- Print...
- Charts...

Below the menu, there are several windows showing different types of reports:

- EXCEL export:** A window showing a table of data with columns: IP, Code interne, Type du poste, Date inventaire, Nom du poste, Etat, Marque, Modèle, Numéro de série, Nom d'utilisateur.
- XML export:** A window showing a table of data with columns: Code interne, Type du poste, Date inventaire, Nom du poste, Etat, Marque, Modèle, Numéro de série, Nom d'utilisateur.
- Table:** A window showing a table of data with columns: IP, Code interne, Type du poste, Date inventaire, Nom du poste, Etat, Marque, Modèle, Numéro de série, Nom d'utilisateur.
- Exportable reports to EXCEL, WORD, XML, HTML, PDF, Email PDF, ...:** A window showing a list of reports that can be exported.
- Pie chart:** A circular chart showing the distribution of data across different categories.

Reports are viewable as pie charts, etc.

► Each list can be exported to EXCEL, WORD, XML ► Included reports can be exported to EXCEL, WORD, XML, HTML, PDF, Email PDF, ...

MANAGING RECYCLING HARDWARE

The complete management cycle of your IT assets

Steps for a successful implementation with Landpark Manager

A quick return on investment and a better productivity profit with Landpark

A PROJECT APPROACH TO HELP YOU

Landpark offers powerful and professional tools to answer IT Manager requirements for managing their assets evolutions and costs

Landpark provides you with the best IT Asset Management and help desk software, helping you achieve optimal management of your resources.

Hundreds of major companies have recognized our expertise in the field, IT managers have successfully been able to exert fine-grained control over their IT resources.

Our mission is to :

TREAT each and every customer as unique,

ESTABLISH privileged relationships with our customers,

PROVIDE them with our unique technical expertise and knowledge,

ADDRESS their requirements and validate their expectations through our benchmarks.

Our **APPROACH** to asset management and help desk technology has proven reliable and sustainable over years.

Thanks to the added-value of our approach, we are able to assist you in your projects.

THE COMPANY

Founded in 1992, our company has acquired recognized expertise in PC software.

The company has since consolidated its technological proficiency with a practical approach by constantly analyzing the actual needs of its clients.

Since 1998, the company has consistently increased its presence in the world of IT asset management and has been a major international actor by successfully deploying its solutions in blue-chip corporations and administrations.

The company has always been keen on selecting the right technology for a successful development strategy. Thousands of customers have already installed one of our products.

Our Landpark product range allows significant increases in productivity and a better implementation of IT asset management best practises thanks to the technical insight of our engineers.

Today, our company has become a major publisher with a large number of innovative solutions.

Our company dedicates a significant amount of its turnover to R&D.

Capitalizing on its customers' experience, its developers are constantly at the forefront of cutting-edge technology.

Landpark SAS becomes today a major editor with significant number of solutions
