

Press Release

ORANGE UGANDA HAS CHOSEN LANDPARK TO POWER ITS GLOBAL IT INFRASTRUCTURE.

By choosing Landpark, ORANGE UGANDA has decided to implement our IT Asset Management and Helpdesk solutions in order to manage its IT infrastructure more efficiently.

Tours, May 2013: Landpark and Orange Uganda signed an agreement whereby Orange Uganda will be equipped with Landpark IT Asset Management and Helpdesk Software. Orange is the key brand of France Telecom, one of the world's leading telecommunications operators. With more than 131 million customers, the Orange brand covers internet, television and mobile services in the majority of countries where the Group operates. Since the launch of the brand in Uganda 2009, Orange Uganda has positioned itself as a strong challenger on the market with a series of innovative and attractive offers. Orange is the number one Internet services provider in the country with the largest 3G+ network. Thanks to this partnership, our company is taking its business to an international dimension, providing clients with comprehensive IT Asset Management solutions.

Landpark provides you with the best IT Asset Management and help desk software, helping you achieve optimal management of your resources. Hundreds of major companies have recognized our expertise in the field. IT managers have successfully been able to exert fine-grained control over their IT resources. Founded in 1992, our company has acquired recognized expertise in PC software. The company has since consolidated its technological proficiency with a practical approach by constantly analyzing the actual needs of its clients. The company has consistently increased its presence in the world of IT asset management and has been a major international actor by successfully deploying its solutions in blue-chip corporations and administrations. The company has always been keen on selecting the right technology for a successful development strategy. Our Landpark product range allows significant increases in productivity and a better implementation of IT asset management best practices thanks to the technical insight of our engineers.
