

HOW TO START INVENTORY WITH LANDPARK SCANFREE

Solution for your IT asset tracking needs

LANDPARK SCANFREE

A RELIABLE, PRECISE, COMPREHENSIVE AND EASY TO USE
PROFESSIONAL SUPERVISION TOOL

IMPORTING YOUR INVENTORY RESULTS INTO SCANFREE CAN BE DONE IN ONE OF THE TWO FOLLOWING WAYS

- Landpark Network Ip: installation of an agent on client computers, with Network IP Install to deploy agents first throughout the network
- Landpark DoInventory: this executable allows you to launch inventory operations on client computers via a connection script, without having to install the client/server modules

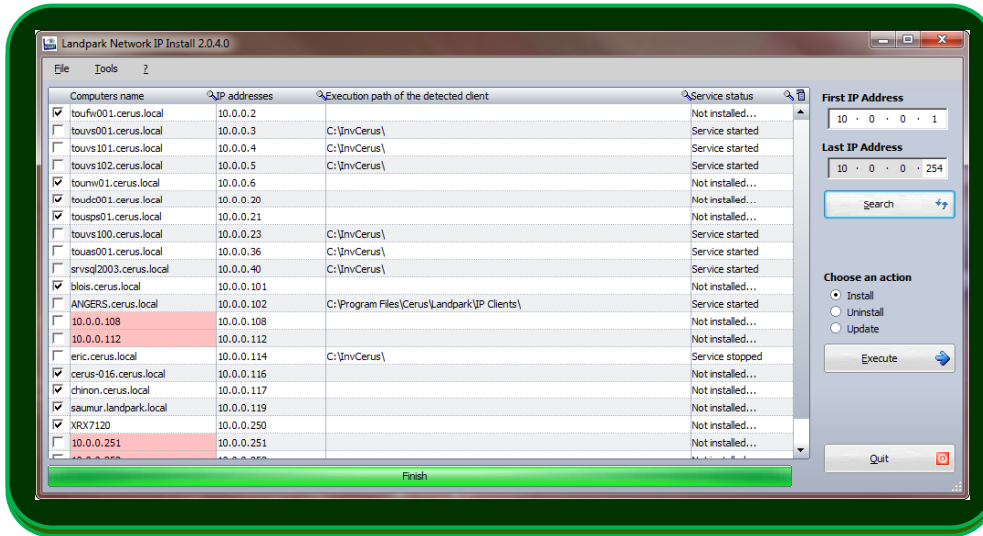

✓ 1ST SOLUTION - INSTALLING AGENTS ON YOUR PCS

1/ Run « Network IP Install » to install agents on your PCs

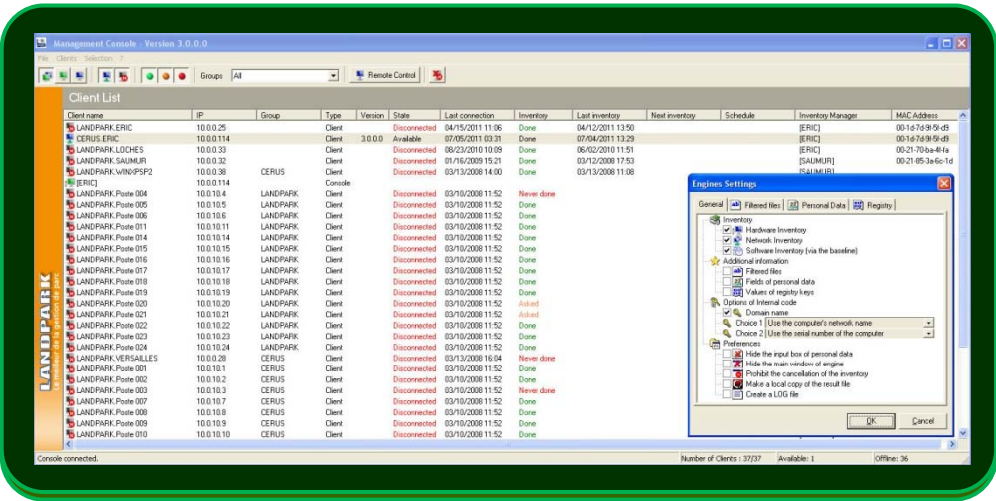

2/ Start your inventories with « Network IP Console »

3/ Installing Network IP Client using a deployment script : you can configure your GPO to run a Network IP Client deployment script upon computer startup. Opting for this setup scenario will ensure that the client service is installed or updated on every computer listed in your GPO. Example : \\MY_SERVER\IPclients\LPLoaderIP.exe -h 192.168.1.2 -d "C:\

1/ NETWORK IP INSTALL
DEPLOY LANDPARK AGENTS ACROSS YOUR NETWORK
(SCAN IP ADDRESSES, THEN EXECUTE ANY ACTION)

2/ NETWORK IP CONSOLE
ONCE THE AGENTS ARE DEPLOYED YOU CAN SET UP AND LAUNCH YOUR INVENTORY OPERATIONS

REMOTE INVENTORY OPERATIONS

SITE 1
(Client1.dta)

SITE 2
(Client2.dta)

SITE 3
(Client3.dta)

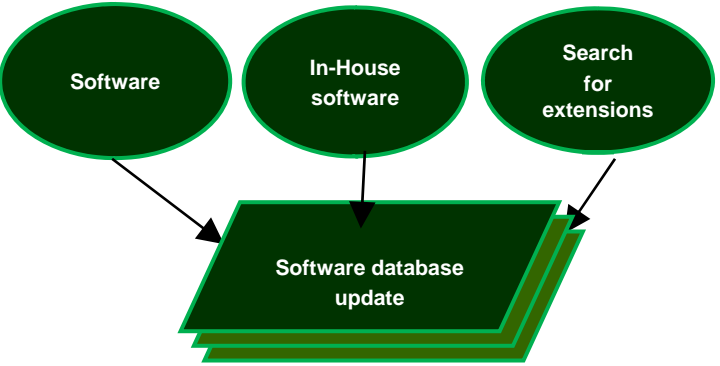

Centralizes various PC connections deployed across your network

Dedicated Ports
TCP port: 2138
UDP port: 2140

IP Console can be replicated across several sites

✓ 2DE SOLUTION - INVENTORY OPERATIONS USING A CONNECTION SCRIPT

DoInventory is an executable that allows you to launch remote inventories on client workstations via a connection script, without having to install the client and server modules.

The inventory operation can for instance be launched upon login or scheduled to run every n days. The inventory engine is automatically selected according to the client operating system.

A log file is also created on the server in order to list the inventories that have been effectively carried out and the errors that may have occurred.

DoInventory command-line syntax:

```
DoInventory [-remoteLaunch | -pPLANIF] [-lLOCAL_PATH] [-rREMOTE_PATH] [-dDTA_PATH] [-nolog]
```

LANDPARK SCANFREE

- 
- A high-angle photograph of a diverse group of business professionals in suits and blouses, smiling and stacking their hands in a circle, symbolizing teamwork and success.
- Landpark Scanfree ensures a complete inventory of your data processing systems.
 - User-friendly and easy to deploy, collects automatically all materials, software configurations and allow you to realize substantial savings.
 - Our expertise has been recognized by thousands of companies

THE COMPANY

Founded in 1992, our company has acquired recognized expertise in PC software.

The company has since consolidated its technological proficiency with a practical approach by constantly analyzing the actual needs of its clients.

Since 1998, the company has consistently increased its presence in the world of IT asset management and has been a major international actor by successfully deploying its solutions in blue-chip corporations and administrations.

The company has always been keen on selecting the right technology for a successful development strategy.

Thousands of customers have already installed one of our products.

LANDPARK provides you with the best IT Asset Management and help desk software, helping you achieve optimal management of your resources.

Hundreds of major companies have recognized our expertise in the field, IT managers have successfully been able to exert fine-grained control over their IT resources.

Our mission is to :

TREAT each and every customer as unique,

ESTABLISH privileged relationships with our customers,

PROVIDE them with our unique technical expertise and knowledge,

ADDRESS their requirements and validate their expectations through our benchmarks.

Our APPROACH to asset management and help desk technology has proven reliable and sustainable over years.

Thanks to the added-value of our approach, we are able to assist you in your projects.

Our Landpark product range allows significant increases in productivity and a better implementation of IT asset management best practises thanks to the technical insight of our engineers.

Today, our company has become a major publisher with a large number of innovative solutions.

Our company dedicates a significant amount of its turnover to R&D.

Capitalizing on its customers' experience, its developers are constantly at the forefront of cutting-edge technology.
