

LANDPARK IDA

AUTOMATIC IMPORT OF YOUR INVENTORIES

LANDPARK IDA FOR SCANFREE PROFESSIONAL EDITION

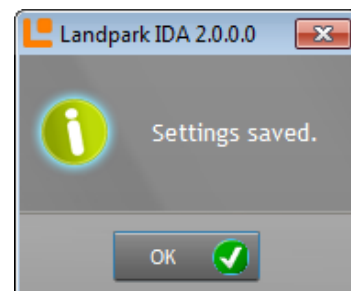

The application Landpark IDA allows to import the information contained in DTA files into Scanfree Pro database

By clicking on the button at the end of the input field named «Location», you can set the default location for news imported workstations

After the checking time and the default location were set you must click on the «Save» button to keep these settings for the next opening of Landpark IDA

LANDPARK IDA FOR SCANFREE PROFESSIONAL EDITION

If Scanfree Pro is opened while Landpark IDA is running, the import is locked

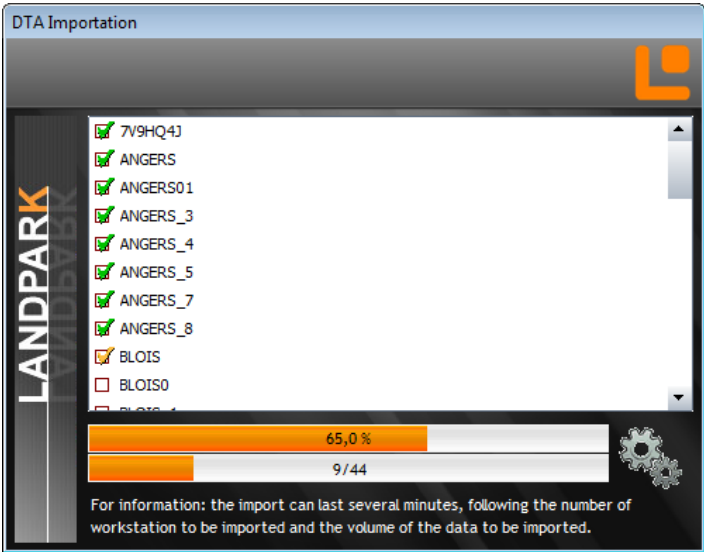

Indeed, the priority is given to the imports from Scanfree Pro

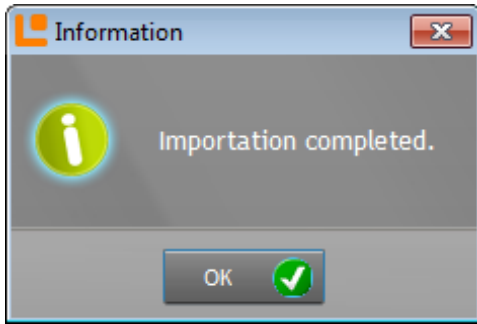

By closing Scanfree Pro, the process of check and import becomes again available

When import is no longer available («Import» button grayed) but Scanfree Pro is not open, you have a label under «Import» button indicating the reason of locking

If the main window of Landpark IDA is visible, the import window allow you to see the progress of these

If the window of import is visible, at the end of these you have a message indicating you that this one is completed

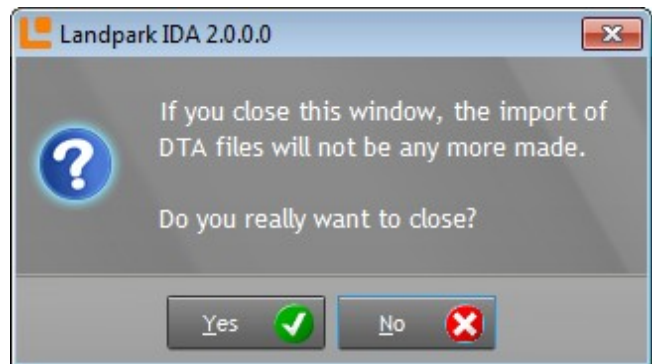

By clicking on the «Minimize» button, you put the application in the «Notification Area» of the «Taskbar»
By right-clicking the Landpark icon in the «Notification Area», a contextual menu displays. This one allows you to redisplay de main window, to run a manual import and to quit Landpark IDA

During the import process, only the «View» menu is available

By clicking the cross of the title bar to close the window, the application asks you to confirm this closure

The company
