

# HOW TO MANAGE SOFTWARE WITH LANDPARK MANAGER

Landpark, comprehensive IT Asset Tracking and ITIL Help Desk solutions

## Management

### Managing software licenses

Software licenses Ctrl+Shift+L

The screenshot shows the 'Software list' window with a table of software assets. The table has columns for Internal code, Software family, Software name, Licenses used, Licenses purchase, Version, Publisher, Executable file, and Executable size. Each row is preceded by a colored circle indicating the license status: green for 'more in stock', yellow for 'as much in stock', and red for 'less in stock'. The table lists various Microsoft products like Visual J#, Visio, Trust utilities, SQL Server, and Office applications.

Internal code	Software family	Software name	Licenses used	Licenses purchase	Version	Publisher	Executable file	Executable size

Create DTA from XML Files

Edit software database

**Inventory software reference database**

**Notes:**

- The 'file name' field is required for 32-bit software inventories, DLLs and ActiveX components.
- For 16-bit applications and files other than \*.exe, \*.dll, or \*.ocx, you must fill in all of the fields.
- You may change the description field for 32-bit applications that are detected by the inventory engine.

**Filters:**

☒ Show unhidden software ☐ Show hidden software ☒ Show undesirable software
